

**CITY OF LAGUNA WOODS
MEMBER OF THE CITY COUNCIL**

ELIZABETH “BEA” MCARTHUR

AGE: 75

OCCUPATION: Retired Arts Administrator

As your only council representative living in United Mutual I will serve my constituents by making government responsible to you.

I have been employed in education and management for both political and nonprofit organizations. After assisting with the incorporation of Dana Point in 1989, I served on the Human Resources, Community Services and Recreation Commissions. In our city's battle for incorporation I worked to avoid the threat of the El Toro airport.

Four years on the United Mutual Board enabled me to effectively advocate for and promote beneficial legislation.

Budget requirements are essential to smooth-running communities. I support our city's unique transportation programs, street improvements, landscape projects and energy conservation grants to homeowners.

I believe in personal liberty, individual responsibility, and ongoing communication with you, my electors.
